

**10**  
YEARS WARRANTY

- Platinum bathroom fittings are exclusively designed and crafted by DREAM BATH. These fittings are warranted for a period of 10 years from the date of purchase, against material or manufacturing defect, subject to the warranty conditions as per the warranty card.
- Petty items like rubber washers, 'O' Rings other rubber/plastic parts, tiny brass nuts etc. are of fragile nature therefore, damages caused to such items due to use are not covered by this warranty. Damage caused to internal brass working parts due to abnormal water quality or using it on fluid other than water are not covered under this warranty.
- Do not use harsh cleaning agent containing abrasives & acids instead use a soft sponge or wet cloth to protect the chrome finish.
- Clean the aerators at regular intervals for a perfect foam flow of water from the fittings. To clean the aerator, remove it, knock out the silver insert & rinse thoroughly with water.
- Clean the overhead tank thoroughly before the supply start. It is suggested that the overhead tank must be clean regularly to avoid deposition of foreign particles.
- In the interest of human being and product, use of potable water is requested. Using bad or poor quality may have decaying effects on human being and fixtures as well.
- During this period, subject to the above mentioned terms & Conditions, we shall repair or replace free of cost any defective part or parts or the product at our option.

Terms & Conditions :

- The prices are maximum retail prices.
- The prices are subject to change without prior notice.
- Company reserve the right to alter or change product design or material in view of improvements, without any notice.
- All disputes shall subject to Ghaziabad (U.P) only.

Manufactured & Marketed by:  
DREAM BATH  
Plot No. 28/1/21, Site IV,

# FAUCETS THAT Celebrate WATER

## EXPERT IN WATER AND ENERGY MANAGEMENT

A pioneer in manufacturing bathroom faucets, Platinum is also a distinctive choice as an expert in water management. Its brass- manufactured faucets are extremely high quality and high tech to keep a pace of demanding Indian standards. Water and energy saving functions, easy-to-use features, ergonomic design as well as high pressure /low consumption streams are just some of the key advantages that distinguish a Platinum Faucets.

# Haven for water
